PROFESSIONAL SUMMARY

I am a Python Developer with training in Django, MySQL, HTML, CSS, JavaScript, and React.js. Currently, I am building a CRM system using Django and MySQL to strengthen my backend development skills. I enjoy learning new technologies, solving problems, and building practical web applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3

Frameworks: Django, React.js, Bootstrap

Backend: REST APIs, Authentication, CRUD, OOP

Databases: MySQL, SQLite

Tools: Git, GitHub, Docker (basic), VS Code

Data Visualization: Pandas, NumPy, Matplotlib (basic)

PROFESSIONAL EXPERIENCE

Email Marketing Executive | Cognitive Market Research, Pune | March 2024 – July 2025

- Worked as an Email Marketing Executive, managing B2B email outreach campaigns.
- Collected and verified contact details of potential clients using Apollo and LinkedIn.
- Used Outlook and GMass to execute targeted email campaigns effectively.
- Utilized LinkedIn Sales Navigator to validate prospect details and company information.

Email Marketing Executive | The Research Insights, Pune | April 2023 – Feb 2024

- Collected and organized prospect contact details using Apollo.
- Executed email campaigns through Outlook to reach targeted audiences.
- Posted and promoted content in LinkedIn groups to expand reach and increase engagement.

TRAINING

Trainee Full Stack Python Developer
